Trauma Informed Care Summit

Wheeling CCRC - Saturday - June 6, 2020

This training will look at the impact of trauma on young children that can have long lasting and sometimes devastating effects on development and behavior. Such effects can also affect caregivers through what is known as Secondary, or Vicarious, Trauma.

Trauma effects can be lessened when adults intentionally prepare for potential threats, implement strategies that enhance nurturing, create a sense of safety for children, and adopt self-care strategies to lessen secondary trauma.

This all day - 6 hour WVSTARS approved training will also cover Emergency Preparedness - discussing emergencies, injuries and emergency contact information. Reviewing established emergency procedures and safety practices will be included.

This summit will be presented by the CCRC Behavior Consultant's and the Early Childhood Specialist's

2020 Census

Shape our children's future. Start with the 2020 Census.

Young children experience new adventures each day, and little ones need all of the support they can get during these early years.

Responding to the 2020 Census is an easy, safe, and important way to help provide resources for children and their communities for the next 10 years.

Everyone living in the United States is asked to complete a simple questionnaire every ten years that asks for basic information about the people who live or sleep in their home. Children under the age of five, however, are often missed.

Young children who are missed in the census tend to live with large, extended families or with multiple families living under one roof. When newborn babies and children are not counted, support for programs such as health insurance, hospitals, childcare, food assistance, schools, and early childhood development is impacted.

Responding to the census is easier than ever. You can complete the census questionnaire online, by phone, or by mail.

And remember, just as you protect the children in your care, the U.S. Census Bureau protects your information. The Census Bureau is required by law to protect any personal information collected and keep it strictly confidential. All Census Bureau staff take a lifetime oath to protect your personal information and any violation of this oath comes with a penalty of up to \$250,000 and/or up to five years in prison.
