Child Care Resource Center

The Child Care Resource Center, a West Virginia Resource and Referral Agency, is pleased to offer additional web-based training opportunities through the Institute for Childhood Preparedness® (ICP) for those providers working in our eight counties! These trainings are registered through WV STARS so participants will receive STARS hours for each completed course. We at the CCRC feel it is extremely important for our child care programs to be prepared in emergency situations. The ICP focuses on trainings that support this need. Now more than ever, our child care programs are seeking opportunities to learn how to better prepare themselves for adverse events such as facing a pandemic or encountering an active shooter situation. We have partnered with ICP to offer five different on-demand webinar trainings to Region 1 providers! But you must hurry!

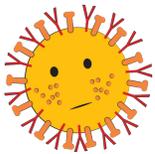

Space is limited as there are only 200 slots. Register now!
